PUZZLE

LYRICS  
by Gianni Sabia

# I can't blame you

You make me feel like a man  
Everyday I learn something new  
Don't get me wrong  
I really do

I like the way you change your mind  
No time to fight anyway  
I like the way you break me down  
The way you build me up

I can't blame you  
I love you more than I ever thought  
I miss you more than I ever thought  
I can't blame you

I've never been so sure  
Of anything before  
Love doesn't knock, it kicks your door

I like the way you keep control  
When you look at me that way  
A part of me is dying for the truth to be told

I can't blame you  
I love you more than I ever thought  
I miss you more than I ever thought

I can't blame you

Can't get you out of my head now...

# Angels never die

Standing on the river side  
A lifeline in my hand  
Please baby keep your chin up  
Hang in there I'm out of breath  
I don't wanna lose you  
I love you so  
I waited for you night and day  
One of these days we'll dance again  
I'll do everything I can  
I know angels never die  
Being together now is insane  
Do not let them get the best of you  
We'll find a bridge to cross the river  
Hang in there it won't be long  
I don't wanna lose you, I love you so  
I waited for you night and day  
One of these days we'll dance again  
I'll do everything I can  
I know angels never die....

# I never do

Every time I see you, I feel so strange  
I want to tell you but I never do  
Without saying a word I feel like I know you  
I want to tell you but I never do  
I feel like a child, will you follow me now  
I feel like a child, will you follow me now  
Sometimes you're so cute I can barely speak  
I want to tell you, but I never do  
What I'm living for is in your hands  
I don't need to tell you, I think you do  
I wish I could stay in this magical place  
Where innocence and love are still safe  
I feel like a child will you follow me now  
I feel like a child will you follow me now  
Will you follow me now, follow me now  
Will you follow me now, follow me now  
I feel like a child, I feel like a child  
Will you follow me now?

# Like a soldier

Fingers on the trigger  
Please feel free to take a seat  
We can cross the land  
I'm afraid there's no place for compromise  
I don't want any trouble  
But somebody open fire  
Like a soldier, like a soldier  
We can't save them both  
This blood's not good for anyone  
I still remember the taste of metal in the air  
Not afraid to be alone  
I'll fight until it's over  
Like a soldier  
Yeah like a soldier  
Until it's over  
Like a soldier

# Rider

Tied with this rope  
I still feel your kicks  
This fence makes me crazy  
All I ask is my rider  
I wish I could leave this town  
Just this time this fucking town  
Hey rider, where are you now  
This mud burns my feet  
I can't raise my head  
I see footsteps but I can't follow you  
All I ask is my rider  
I wish I could leave this town  
Just this time, this fucking town  
Hey rider, where are you now?

# Magic World

Stuck in the ground, you're on your own  
Gotta get lost before you get found  
Above your head, footprints in the snow  
Right to the top, you'll recognise the smell  
Everything you need, will be provided  
Welcome in the magic world  
It's too good to be true, too good to be free  
It's too good to be real, too good to be free  
Deep blue sky the sun always shines  
Without a sound tunnel is getting tight  
It could be a flower, it could be a tree  
One by one, listen to them hit the ground  
Light is so bright that it could make you blind  
Welcome in the magic world  
It's too good to be true, too good to be free  
It's too good to be real, too good to be free

# Head in the clouds

I know that might seem like a dirty trick  
But I feel sure we had enough, no more tears  
You ask me to tell you the truth

Head in the clouds or feet on the ground, It's up to you  
How long before you see, how long before you let it go  
I've been waiting too long, no, I can't do, I can't do this anymore  
I'm feeling, I'm feeling, Finally free after all these years  
One of us has to bring this off.

What do you want me to say? Cup is full  
It's never going to be the right time

Head in the clouds or feet on the ground, It's up to you  
How long before you see, How long before you let it go  
I've been waiting too long, no, I can't do, I can't do this anymore  
I'm feeling, I'm feeling, Finally free after all these years

# Gotta be you

What are you afraid of?  
Fall asleep or wake up  
You've crossed the line too many times  
Who is going to decide?  
It's gotta be you  
It's gotta be you  
I know you like to fly  
Is this the price you pay to go nowhere?  
Weather will remain the same  
If you don't decide  
It's gotta be you  
It's gotta be you  
You can keep on running  
But you've to decide  
If you want to be free  
Want to be free  
It's gotta be gotta be you  
It's gotta be gotta be you

# Puzzle

Take a look inside  
Only one way to figure it out  
Try to put your fear aside Get on up & shake it out  
Stick or Stuck, It's all about the game  
It's better not to waste time  
Some things are worth fighting for  
Now take your time & look around you  
Here you can't lie, staying true to the game  
Right up till the end  
Running in the same place, so many keys  
Surrounded by so many doors, no easy way out  
But all is around, a good catch makes you want to carry on  
Going round & round, everything you lose ain't a loss  
In middle of nowhere, It's somewhere for someone  
They're all over the place, It's like a room of memories  
Do every run like it's your first  
Now take your time & look around you  
Here you can't lie, staying true to the game  
Right up till the end  
Running in the same place, so many keys  
Surrounded by so many doors no easy way out  
But all is around a good catch makes you want to carry on  
Take a look inside, everything you lose ain't a loss..

# Put your gun down

Standing on the edge  
With ball & chain  
Ready to take the stand but no one wants to hear  
I don't need to be read my rights  
I'm here to confess  
Please put your gun down, someone saved my life  
Oh oh oh oh oh oh, can you hear me now  
Oh oh oh oh oh oh, can you hear me now  
Many stories will come out  
Devil is in the details  
Under this badge and uniform  
Who is behind the cell?  
I don't need to be read my rights  
I'm here to confess  
Please put your gun down, someone saved my life  
Oh oh oh oh oh can you hear me now  
Oh oh oh oh oh can you hear me now
